

Part No. 2320-0044

MEM8988

REVISION 1

HD Covered forks with lightbar
MS Batwing Fairing
Mounting kit, Black

Before assembly, read Warnings inside

WARNING

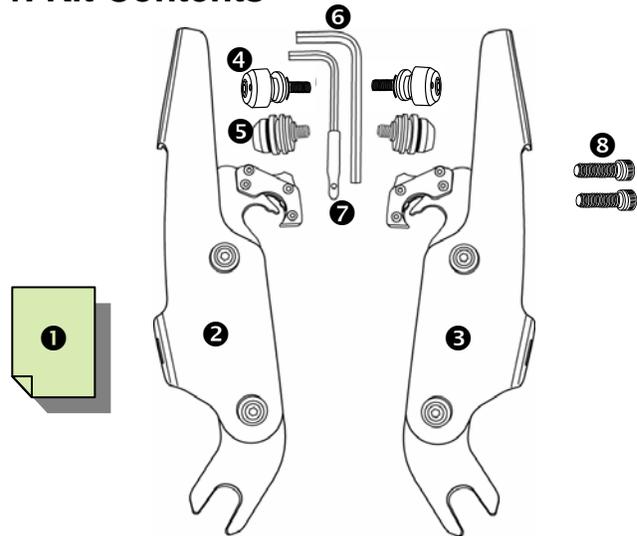

1. During installation, make sure that the fairing and hardware do not interfere with any cables or wiring when the forks are turned all the way in either direction. Also make sure , through the full range of adjustment, that the fairing and hardware do not hit the gas tank.
2. This is a detachable fairing, ALWAYS make sure the locking mechanism is fully engaged after installing the fairing.
3. The improper installation of this kit and related components could result in serious injury or death.

CAUTION

1. Memphis Shades fairings are made from Lucite® acrylic, and will last for years with proper care. Clean your fairing with plenty of soapy water (mild dishwashing liquid is best) and a soft cotton cloth. Use your bare hands to feel and dislodge bugs, or cover with a wet, soapy towel and let it soak. Don't use paper towels and scrape with anything. Small scratches can be removed with NOVUS #2.
2. Never use any glass cleaning products, petroleum based chemicals, or cleaning agents with ammonia, bleach or any other harsh chemicals. This includes (but not limited to) RainX, brake fluid, acetone, paint thinner, benzene and gasoline. "If it hurts your nose, it will hurt the plastic."
3. Glass cleansing agents will cause severe damage to your fairing, and will void your warranty.
4. At certain times of the day the Sunlight can reflect off the curvature of a fairing and cause extreme heat build-up on motorcycle instruments and instrument panel. Take care when parking. Park facing the sun, place an opaque object over the instruments or adjust the fairing to avoid reflections.

1. Kit Contents

Ref	Code	Description	Qty
①	I8988	Mounting Instructions	1
②	M949	Clutch side mounting plate assy, black	1
③	M950	Throttle side mounting plate assy. black	1
④	K45	Upper aluminum offset bushing assembly	2
⑤	K28	Lower bushing assembly	2
⑥	R340	1/4" Short arm allen wrench	1
⑦	R310	3/16" Short arm allen wrench	1
⑧	M361	5/16"24x1 1/2" SS Socket head cap screw	2

2. Mounting Instructions

Additional tools required that are not included in this kit. 1/2" wrench, 7/16" wrench.

1. **Cover gas tank and front fender with towels to avoid damage during installation.**
2. Remove upper light bar mounting bolts and rubber fairing docking bushings if equipped. Install the Upper aluminum offset bushings ④ provided (Fig 1). Add additional bolt head shim if needed to ensure that it tightens and does not rotate. Orientation dimple must face forward to create maximum clearance between Trigger-Lock and tank (Fig 2). Note. Additional 1 1/2" bolts ⑧ are included for some applications.
3. Remove the two lower Light Bar mounting bolts located on both sides of the forks. Install the new Lower bushing assemblies ⑤ on either side. (Fig 1)

Memphis Shades warrants all product components, metal and plastic, against defects in materials and workmanship for 24 months.

HD Covered forks with lightbar
MS Batwing Fairing
Mounting kit, Black

2. Mounting Instructions, continued

4. Attach the fairing to the fairing mounting plates **2**, **3** using the acorn nuts and washers provided. The Mounting tabs should be pointing in towards the headlight when installed correctly. (Fig 3)
5. Slip the fairing mounting plates and fairing onto the upper and lower bushing assemblies. (Fig 4) and secure the left and right side locking mechanism.
6. Carefully turn forks all the way in either direction and check for clearance between Trigger-Lock and tank (Fig 2).
7. Adjust the height, angle and alignment of the fairing and tighten **ALL** bolts.

Note: This is a detachable fairing, ALWAYS make sure the Locking Mechanism is Fully Engaged after installing the fairing!
