

MOUNTING INSTRUCTIONS

2320-0011 FATS /SLIMS DETACHABLE MOUNTING KIT H-D NARROW

⚠ WARNING

Read and follow these directions carefully.

During installation, make certain that when turning the forks, there can be no interference with wiring or cables AND, that the windshield can not hit the gas tank, through the windshield's full range of adjustment.

This is a detachable windshield, **ALWAYS** make sure the Locking Mechanism is Fully Engaged after installing the windshield!

The improper installation of this kit and related components could result in serious injury or death.

Additional tools required that are not included in this kit. 7/16" or 11mm Wrench.

1. Cover gas tank and front fender with towels to avoid damage during installation.
2. Install the two mounting plates onto the windshield, using the bottom and third bolt up. Leave the nylon washers off. The small tab goes to the bottom, big one at the top. *Tabs point out towards the edge of the windshield.* (see fig. 1)
3. Loosely install the four Fork Clamps on the forks, approximately 2" apart. (see figure 2)
4. Start with Fork Clamp Bushing adjusted to rear of slot (see figure 4) Then adjust as needed and check for clearance. (See warning above.)
5. Slip the windshield mounting plates and windshield onto the fork clamps, (see figure 3 and 5) and secure the left and right side locking mechanism
6. Adjust the height, angle and alignment of the windshield and tighten **ALL** bolts.

Note: This is a detachable windshield, **ALWAYS** make sure the Locking Mechanism is Fully Engaged after installing the windshield! (see figure 5)

CAUTION

IMPORTANT CARE AND CLEANING INSTRUCTIONS

Memphis Shades Windshields and Lowers are made of Lucite® acrylic, and will last for years with proper care. Clean your windshield with plenty of soapy water — mild dishwashing liquid is best — and a soft cotton cloth. Use your bare hand to feel and dislodge bugs, or cover with a wet soapy towel and let it soak. Don't use paper towels and don't scrape with anything. Small scratches can be removed with NOVUS #2.

NEVER use any glass cleaning products, petroleum based chemicals, or cleaning agents with ammonia, bleach or any other harsh chemicals. This includes (but not limited to) RainX, brake fluid, acetone, paint thinner, benzene and gasoline. "If it hurts your nose, it will hurt the plastic."

Glass cleansing agents will cause severe damage to your windshield, and will void your warranty.

NOTE: At certain times of the day the Sunlight can reflect off the curvature of a windshield and cause extreme heat build-up on motorcycle instruments and instrument panel. Take care when parking. Park facing the sun, place an opaque object over the instruments or adjust the windshield to avoid reflections.
